

GRADE 12

INDIVIDUAL COLLEGE & CAREER COACHING

Trained college & career coaches work one-on-one with high school seniors, equipping them with regionally-relevant workforce and post-secondary information. From exploring career options and FAFSA completion to test scheduling and college application preparation, our coaches complement your counseling staff and take students from uncertainty to confident action.

SERVICE FEATURES:

- On-campus presence with trained professionals (virtual coaching as needed)
- Personalized and actionable college & career success plan for each student
- FAFSA awareness and assistance, customized to your school's needs
- College application preparation, including securing fee waivers
- Seamless integration with your counseling and administrative staff

Virtual coaching is available for students who may not be on campus. All materials can be modified to accommodate special populations.

FROM A COUNSELOR:

It's helpful to have champions for my students on campus to discuss their future goals and plans. I appreciate that I can trust them [Career Compass] to care for my students, even when I'm out of the office. I know that they have the best interests of my students in mind.
